

# Getting Started with your Blog

## Getting Started

Congratulations! Now that [you've activated your blog](#), you're ready to start adding content. WordPress is an application that is best learned by diving in and exploring what it can do, but there are many resources online that can help you get started. The [WordPress Codex](#) (an online manual) is a primary source for many WordPress topics. Listed below are a few pages from the [WordPress Codex](#) that we think are particularly useful in learning more about blogging and WordPress.

[Introduction To Blogging](#)

[First Steps with WordPress](#)

[WordPress Semantics](#) (and Jargon)

## Next Steps

Now that you know a little bit about blogging and WordPress, you're off to a good start. More detailed administration guides are available at [UW Blogs Network Administration](#).
