While this wiki has a lot of information, below is the minimum that you should know:

- Hyak_linux_command_line
- Hyak_text_editor
- Hyak_files
- Hyak_modules

For both ikt.hyak (hyak classic) and mox.hyak (hyak nextgen):

- Mox_scheduler

Below link is only relevant if you belong to the genpool group:

- Mox_genpool

Below link has the Hyak HOWTO pages. You should go through the list and locate the few pages that are relevant to your work.
